About Coincent

Coincent is a leading EdTech platform dedicated to bridging the critical gap between academic knowledge and industry demands. We provide immersive, application-based learning experiences designed to cultivate the next generation of highly skilled professionals with its 3 year program

Our Vision & Mission

Our Purpose:

Coincent purpose is to provide students with a structured, 3 - year learning journey that delivers hands-on experience, project-based learning, and guided career mentorship — enabling them to graduate not just with degrees, but with job-ready skills, confidence, and industry exposure.

Vision:

To redefine how students learn, build, and launch their careers — fostering a future where academic learning is seamlessly blended with real industry experience.

Mission:

Mission is to ensuring every learner becomes career-ready, confident, and competent in the evolving tech landscape.

Experience the whole new way of learning with Coincent and get Credibility Certificates

Coincent is Microsoft Certified and Recognized by Global Partnered Companies

Coincent Offers

Coincent 3-Year Program is a carefully curated, end-to-end career development initiative designed for undergraduate students who seek more than just academic excellence. This program integrates industrial training, project-based learning, and guaranteed internships into a single, seamless journey — equipping learners with the technical expertise, soft skills, and industry readiness required to thrive in today's competitive job market.

Coincent 3 Year Program Structure

Year 1: Live Industrial Training

In the first year, learners undergo domain-specific industrial training aligned with real-world standards and industry expectations. The 2.5-month industrial training is hands-on, and the learners will be guided by industry experts

Benefits of the Live Industrial Training

- . Hands-on exposure to tools, platforms, and methodologies used by top companies
- . Curated learning paths designed by Industry experts
- . Skill assessment checkpoints to ensure retention and application

Outcome: Strong technical base, enhanced confidence, and clarity on career direction.

Year 2: Project-Driven Learning & Real-World Application

The second-year transitions students into a high-impact learning environment through 8 live industry-grade projects, delivered in collaboration with Coincent's technology partners.

Benefits of the Project-Driven Learning & Real-World Application

- . 8 Live projects which gives real-time exposure
- . End-to End industry expert support while executing the project
- . Microsoft certificate post clearing the Exam

Outcome: Build a deployable project portfolio and master real-world problem-solving.

Year 3: Guaranteed Internship & Placement Support

The 3rd year is focused on building competency. Students will be getting guaranteed internships with top-tier startups and tech firms, including Movidu, Worisgo, and ThreatPrism etc. subsequently placement assistance will also be provided

Benefits of the Guaranteed Internship & Placement Support

- . Personalized placement preparation (mock interviews, coding practice, resume optimization)
- . Internship aligned with career interest and project history

Outcome: Industry experience + targeted placement support = job-readiness at graduation.

Benefits With Coincent

Certifications Offered

Industrial Training Certificate - validate and demonstrate the practical skills and real-world experience, acts as a credible endorsement of your practical skills and industry readiness.

Live Project Completion Certificate - It is concrete proof that you've moved beyond theoretical learning and have successfully engaged with and completed projects

Internship Completion Certificate - it's a testament to your practical learning, dedication, and readiness to contribute to an industry setting

These certificates enhance your resume and can contribute to academic credit requirements.

Coincent Highlights

Duration: 3 Years (Part-time alongside college)

Coincent's 3-Year Program is designed to run parallel with your college education, enabling consistent upskilling without disrupting academic commitments. It offers a structured, long-term roadmap for career readiness.

Delivery Mode: Hybrid (Flexible Learning+ Live Sessions + Mentorship)

Experience flexible learning through a hybrid model that combines on-demand modules, expert-led live sessions, and personalized mentorship — ensuring both autonomy and guided support throughout the program.

Microsoft Certificate

Coincent officially recognized by Microsoft, significantly enhances a student's profile by validating their skills in widely-used industry technologies. This certification demonstrates proficiency to potential employers, setting students apart in the job market and opening doors to a wider range of career opportunities.

Project Count: 8 Live/ Major Projects + Capstone

Build a professional project portfolio with 8 industry-grade projects and a final capstone, all mapped to real-world use cases across domains like AI, Web Development, and Cybersecurity.

Certifications: Industrial Training, Project Completion, Internship Certificate

Earn three valuable certifications — for industrial training, live project completion, and internship — each adding strong credibility to your resume and meeting academic or credit point requirements

Limited Seats: Only 150 students per Domain

With just 150 carefully selected students each year in each domain, Coincent ensures a focused, high-quality learning environment and personalized career support for every learner
